Surprise Party

Sunmore

Sunrise Rose

Crazy Daisy Pink

Federation Daisies are unsurpassed for inspirational and romantic mass planting effects.

The popular movie 'Field of Dreams' was associated with the phrase, 'Build it and they will come'. Building a garden and filling it with a breathtaking display of these lovely daisies in many tones of pink, white and lemon will lift your spirits and allow you and your friends to indulge in the pleasure of a feast of lovely flowers.

Care of Federation Daisies could not be easier. . .

SUN is required for a beautiful display of flowers.

WATER is needed in the dry months to avoid water stress and foliage collapse.

FEED regularly with a good slow release fertiliser to help keep this super flowering daisy's strength up.

TRIM at the end of flowering to maintain a nice shape and avoid plants going woody.

REPLENISH your garden from time to time. Buy new robust Federation Daisy plants and splash out on new colours and flower forms. Cuttings can be taken from woody stems to give more plants for mass planting.

OPPOSITE PAGE: Federation Daisy 'Crazy Daisy Pink'
